

**Town of Lewisville**  
**August 13, 2015**  
**Town Council Minutes**  
**Houston Brick 5:00 PM**

It was announced that this would be a short meeting with only minutes approval, claims approval and representative from NLTC, due to one board member (Richard Craig) not present and one board member Patricia Morton) needs to leave shortly.

The Town Council meeting was called to order by Patricia Morton.

Present:

Robert Blake

Patricia Morton

Absent:

Richard Craig

Board approved minutes from previous meeting. Robert Blake made motion to approve minutes with Patricia Morton seconded. All voting aye.

John Greene, CEO and General Manager from New Lisbon Telephone Company, attended to give information to the council. NLTC runs internet service from Lewisville Water Tower. He informed the council that NLTC will be running fiber optic cable to the Lewisville Water Tower. The customers for the fiber will be Citizens State Bank and the Water Tower. If there is interest from residents, NLTC hopes to offer it in 2016. He proposed for the next contract, current ends December 2015, that NLTC provided the town office and water plant exchange for placement on the water tower. He will provide a proposal in writing for a future meeting. He also discussed a grant that they are looking into for the fiber optic.

David Rich was not present for a maintenance report;

Claims approved as presented.

Meeting adjourned.

The foregoing excerpts of minutes are hereby certified to be true and correct.

Submitted,

These following statements were made before meeting called to order and after Councilwoman Morton stated the board would take no business from the floor.

Lee Fleenor made it clear that he was not happy with a short meeting with no audience participation. Fleenor thought it was very convenient that he could not bring very important business before the board and Patty should have made other arrangements. Jerry Ingalls stated he was going to file a tort claim on August 17<sup>th</sup>; he wants to give the town another opportunity to pay for damage done when neighbor's tree limb fell on his electric wire to his home. He stated the insurance investigator stated the tree is on town right away. He is going to ask \$1800 in tort claim when he originally wanted only half of the bill which would be \$125.00. Both persons were speaking at the same time.

After meeting started both Fleenor and Ingalls interrupted the meeting without permission from board. Fleenor wanted to know why Mr. Greene was allowed to speak. Mr. Greene had called the Town and asks to be put on the agenda.

Adam Thompson stated that he had a grant application from Henry County Foundation about the shelter house. He had attended a meeting and he stated that the foundation suggest the town fill out the application since the town owns the building. Councilwoman stated again that they were not taking any business from the floor. The

application was left with the board. Mr. Fleenor came around the board table to intimidate Board Member Robert Blake about his vehicle being tagged as abandon vehicle. Mr. Fleenor would not let Blake explain so Blake left.
